13. (Internal Use Only - LLM) On referral from [] OPPB, STAT
called Jim Oliver, OMB, and told him that probably early next week we would
send OMB the Agency's position on S. Con. Res. 23, establishing a joint
committee for "intelligence and information activities." I said our probable
position would be deferring to Congress on how they run their business
and pointing out the wide and possibly confusing jurisdiction of
the joint committee. I also told Oliver that pressure building up within
our oversight committee for amending the 1947 Act was a new factor in
legislation concerning the Agency.

14. (Unclassified - JMM) Talked to Dorothy Fosdick, Senate STAT
Permanent Investigations Subcommittee staff, regarding a personnel matter.
